**WE NEED TO FILL
THE ROOM!**

Toll Brothers is moving forward with their efforts to build 317 homes on these beautiful and historic rolling acres. Westtown's Planning Commission attempted to limit the impact of Toll's proposal by attaching 48 conditions for approval, with the recommendation that if the conditions are not met, then the application should be denied. **This decision now rests in the hands of just three elected officials—the Westtown Board of Supervisors—and** we do not know if they will buckle when Toll pushes back against these conditions. The Supervisors need to know that you are paying attention, and that this is important to you! Send letters, make calls, and most importantly, show up for the Board of Supervisors meetings. Templates, talking points, and more can be found at www.crebillyfarmfriends.com.
